Senior Software Engineer with 5+ years of experience specializing in web application development using React.js, TypeScript, Next.js, and JavaScript. Committed to providing scalable, efficient, and user-centric solutions.

Professional Experience

Codal (Ahmedabad)

07/23 - present

Senior Software Engineer

- Led front-end development for client web applications using Next.js and Typescript, ensuring adherence to accessibility standards and achieving a 90% client satisfaction score within six months.
- Successfully secured client contracts by developing and presenting a compelling Proof of Concept (POC), which resulted in a 30% increase in client engagement. The POC effectively demonstrated the technical capabilities of our solutions, leading to an 80% boost in client confidence.
- Actively participated in daily stand-up meetings, facilitating open discussions on project requirements, progress, and challenges. Collaborated with team members to identify and address roadblocks promptly, ensuring project timelines were met.
- Created test cases using jest with more than 60% coverage.
- Coordinated with cross-functional teams of 5+ engineers to resolve 95% of critical issues within 24 hours, ensuring on-time project delivery and maintaining a 99.9% uptime

Lanet Team Software Solutions (Surat)

05/19 - 05/23

Frontend Developer (React JS Developer)

- Led the end-to-end development of software projects utilizing React.js, TypeScript, and JavaScript. Delivered high-quality solutions, from the initial concept phase to the ongoing maintenance stage, ensuring client satisfaction and project longevity.
- Mentored junior team members. Coordinated efforts to facilitate the smooth integration of various components, resulting in cohesive and efficient applications.
- Worked with cross-functional teams, including front-end and back-end developers, data scientists, and stakeholders, to deliver projects on time and align with organizational objectives.
- Communicated consistently and effectively with clients during all phases of the project. Gathered feedback and requirements, ensuring that the software met or exceeded client expectations and adhered to project timelines and budgets

Lanet Team Software Solutions (Surat)

08/18 - 05/19

Intern

- Leveraged a deep understanding of React.js, TypeScript, and JavaScript to architect robust and scalable solutions. Continuously improved code quality, performance, and maintainability through code reviews and best practices.
- Engaging actively in continuous learning and professional development, staying current with industry trends and emerging technologies in React.js and other relevant areas.
